PROJECTS

Web Development Project | <https://www.barnabasconnects.org/>

Barnabas Connection is a non profit organization that provides health and human services, client advocacy, and community education. The initial goal of this project was to redesign the existing website, being that it was outdated. Utilizing my wireframing, web development, and WordPress skills, I planned and executed accordingly.

- Skills | Technologies Used: WordPress, Wireframing, HTML5, CSS3, Information Architecture (IA), Figma, Trello, Slack

UX/UI Project | [Chefsy Case Study](#)

Chefsy was a hypothetical mobile app that would allow its users to generate recipes, meal plans, and more based on ingredients they already had in their pantry. With a team of 5, we built a clickable mobile prototype utilizing Miro, Figma, and InVision.

- Skills | Technologies Used: User Research, User Experience Design (UI/UX), Decision Mapping, Persona Creation, Wireframing, Information Architecture (IA), Interaction Design, Prototyping, Usability Testing, Storyboarding

Web Development Project | <https://chasemcquown.github.io/simple-WX/>

SimpleWX is a weather application that will return both current conditions and a 5 day forecast to a user upon fetch.

- Skills | Technologies Used: Bootstrap, Wireframing, HTML5, CSS3, JavaScript, Open Weather's API, GitHub

UX/UI Project | [Central Texas Ruffugees Case Study](#)

Central Texas Ruffugees is a non profit organization that rescues dogs from kill shelters in central Texas. They were in need of not only more fosters to take care of rescue dogs, but also in desperate need of a redesigned website..

- Skills | Technologies Used: Wireframing, User Research, User Experience Design (UI/UX), Decision Mapping, Persona Creation, Storyboarding, Wireframing, Information Architecture (IA), Interaction Design, Prototyping, Usability Testing

Digital Marketing Project | [Alamo Drafthouse Rewards Program Marketing Campaign](#)

A hypothetical marketing campaign for a hypothetical rewards program.

- Skills | Technologies Used: Market Analysis, Competitor Research, Retargeting, Digital Funnel, Paid Search Ads, WordPress

Full Stack Web Development Project | <https://farm-gomarket.herokuapp.com/> | [Github Repo](#)

A hypothetical MERN stack farm to client application.

- Skills | Technologies Used: Bootstrap, Wireframing, HTML5, CSS3, JavaScript, Node.js, Express.js, Mongo.db, React.js, GitHub
